TIPS&TRICKS

How to organise your linen cupboard

1. Empty your linen cupboard completely and take inventory.
2. Allocate each piece to one of the four de-cluttering piles: Keep, Bin, Sell, Donate
3. Think about how many sets of bed linen you really need, and what is nice to have. Prioritise!
4. Have dedicated shelves for your bed linen, towels, throws etc. to make sure everything goes back to the same place after washing. Label your shelves if that helps you to stay organized more easily.
5. Learn how to fold a fitted sheet properly in order to maximize storage space.
6. Organise your fitted sheets with the matching bed linen and flat sheet together in one pile. This looks great and gives you an instant overview of your colours and patterns when opening your cupboard.
7. Buy gorgeous storage boxes (see Kikki-K, Ikea or Howard's Storage World for fabulous finds) and store smaller items in labelled boxes.
